

## **Resort Update - February, 2007**

The sliding glass doors in the one-bedroom and the two-bedroom Ketch units were completed in September. The painting and waterproofing projects were completed in October. There were a few concrete issues that needed repair, however the project went smoothly. I would like to thank everyone for their patience during these projects.

The furniture in the lobby has been replaced. The new set includes two tables and chairs, in addition to two conversational areas with loveseats and chairs. The new setting gives the lobby a more appealing look and helps those who need internet access to have a place to use their laptops.

Gail recently joined our team as a front desk/recreation associate. Please stop by to greet Gail during your next visit to the resort. We are sure that you will be as pleased to meet her as we are to have her on board.

Regards,

Michele Jenkins  
Resort Manager
