

The Charter Club of Marco Beach®
Resort Update • April 05, 2006

The Charter Club of Marco Beach®
Re-Opens Week 5 February 4, 2006

We are glad to have our owners and guest back in house. The Board of Directors, Hilton Grand Vacations Company, the Insurance Company and the onsite staff has worked long hours to get your resort back in shape as quickly as possible. We are all happy to say that the property is once again safe and attractive.

Your continued patience and understanding is appreciated as we continue to add the finishing touches to your home away from home. The Landscaping is near completion, Balcony lights, landscape lighting, and Tennis court lights are yet to be repaired as well as the Tennis court light poles have yet to be straightened. The plastic drapes to shield out the rain and wind under both buildings, railing repairs, and the trash dumpster fencing are among the items yet to be completed.

Collier Boulevard is undergoing significant road improvements which require the periodic re-routing of traffic. While these situations are beyond our control, we do apologize in advance for any inconveniences you may experience.

Again, thank you for your patience and understanding.
